Assistant Commissioner for Patents
Washington, D.C. 20231

Further to the Preliminary Amendment mailed October 19, 2001 and prior to conducting examination of the above-identified application, please enter the following amendments and consider the following remarks:

In the claims:

Please add the following new claims.

95. In a viewer program operatively connectable to a source of content, the viewer program having a plurality of functions related to presenting the content from the source, a method comprising:
- (A) receiving content from the source;
 - (B) receiving function authorization data indicating which of the viewer functions may be performed on the content from the source;
 - (C) presenting the content with the viewer program; and
 - (D) disabling selected viewer functions in accordance with the function authorization data received from the source.
